

Dear CSCN members

We are very excited to let you know we will be launching a series of special issues focused on **“Pediatric Sleep Around The World”** for the **Sleep Medicine** journal (a 5-Year Impact Factor of 3.812 <http://www.sleep-journal.com/>). The objective of this series of special issues is to build on the leadership of the journal in order to create a unique platform that will highlight and strengthen the international exchange of knowledge pertaining to pediatric sleep, thereby contributing to the advancement of sleep education, research and patient care worldwide. The special issues will be published once a year with a focus on pediatric sleep research and clinical work in specific countries. This issue will focus on **CANADA**, the host of the 2019 World Sleep Congress meeting. This meeting is a **joint congress of World Association of Sleep Medicine (WASM) and World Sleep Federation (WSF) and Canadian Sleep Society**.

For more information Please see: <https://www.journals.elsevier.com/sleep-medicine/call-for-papers/call-for-papers-special-issue-focused-on-pediatric-sleep-aro>

Submissions should focus on Canadian youth and should include research or clinical work that has been conducted in Canada with Canadian youth. All papers will go through Sleep Medicine journal standard peer-review process. In order to achieve a special issue that makes a significant impact on the field priority will be given to studies that include any of the following: a large population based sample; multiple measures and reporters; biological outcomes; interventions; and/or a longitudinal or experimental study design.

Deadline for submissions

August 30 2018

All the information for submission can be found in the Sleep Medicine website at the address: <https://www.elsevier.com/journals/sleep-medicine/1389-9457/guide-for-authors>

When submitting please specify that the paper is for the special issue “Pediatric Sleep Around The World” by selecting SI: Pediatric Sleep Canada upon initiating your submission and when you are asked by the system to Choose Article Type.
