

Postdoctoral Fellowship in Chronic Stress and Insomnia

We are presently recruiting a **postdoctoral fellow** interested in clinical research on insomnia. The fellow will be working on a Canadian Institutes of Health Research (CIHR)-funded study examining the impact of chronic stress on responses to cognitive-behavioural therapy for insomnia at Concordia University, in Montréal, Canada.

The fellow will be actively involved in a treatment study of patients with chronic insomnia by conducting semi-structured diagnostic interviews and delivering cognitive-behavioural therapy for insomnia. The fellow will have the opportunity to be involved in data collection and analysis of current and past cognitive-behavioural therapy for insomnia trials. The fellow will also have access to other longitudinal studies of chronic stress and health. The post-doctoral fellow will be co-supervised by Dr. Jean-Philippe Gouin, Clinical Psychologist, and Dr. Thanh Dang-Vu, Sleep Neurologist.

Required education/skills: Ph.D. in clinical psychology, experiences in cognitive-behavioural therapy, excellent organizational skills, autonomy and ability to work in team, good writing skills. Bilingualism (English and French) is an asset, but not required.

This is a 12-month, renewable contract. Salary and benefits are commensurate to those offered by the Fonds de la recherche en santé du Québec postdoctoral training program.

You can apply for this position by sending your curriculum vitae and a letter of motivation to the principal investigator (jp.gouin@concordia.ca). Request for any additional information should also be directed to him. Review of applications will begin as they are received and will continue until the position has been filled. Start date is flexible, but preferably in September or October 2019. Only those candidates selected to interview will be contacted.

Dr. Jean-Philippe Gouin, Ph.D,
Associate Professor, Clinical Psychologist
